

Tanta University ----- Internal Medicine Exam

Faculty of Medicine ----- Anaesthesia Diploma

Time Allowed: 3 hours ----- 20/8/2019

Total Marks : 90

MCQ (60 marks)

Answer all of the following questions (3marks each)

1-Paroxysmal hypertension is classically found in

- A) Coarctation of aorta
- B) Eclampsia
- C) Renal artery stenosis
- D) Pheochromocytoma

2-Congestive heart failure may be seen in all except:

- A) fallot's tetralogy
- B) Mitral stenosis
- C) Patent ductus arteriosus PDA
- D) Coarctation of aorta

3-Heart valve commonly affected in Intravenous drug abusers is:

- A) Pulmonary valve
- B) Mitral valve
- C) Tricuspid valve
- D) Aortic valve

4-Hyperthyroid heart disease manifested by:

- A) Pericardial effusion
- B) Diminished cardiac output
- C) Prolonged circulation time
- D) Paroxysmal atrial fibrillation

5-A 55 year old smoker presents with a history of productive cough of mucoid sputum in every winter for last three years, the most likely diagnosis is:

- A) Bronchial asthma
- B) Bronchiectasis
- C) Bronchogenic carcinoma
- D) Chronic bronchitis

6-Commonest histological variety of Bronchogenic carcinoma is:

- A) Small cell carcinoma
- B) Large cell carcinoma
- C) Epidermoid carcinoma
- D) Adenocarcinoma

7-Commonest cause of lower GIT bleeding:

- A) Varices
- B) AV malformation
- C) Piles and anal fissure
- D) Familial polyposis coli

8-Hepatic encephalopathy due to progressive liver failure is suggested by all except:

- A) Regular sleep rhythm
- B) Apathy: slow response to questions.
- C) Asterixis
- D) Confusion and disorientation

9-Octreotides is an important drug to control bleeding from:

- A) Esophageal varices
- B) Piles
- C) Peptic ulcer
- D) Reflux esophagitis

10-All are recognized causes of chronic renal failure except:

- A) Diabetes mellitus
- B) Snake bite
- C) Obstructive uropathy
- D) Malignant hypertension

11-Mallory Weiss syndrome is commonly seen accompanying:

- A) Reflux esophagitis
- B) Alcoholism
- C) Oesophageal carcinoma
- D) Hiatal hernia

12-In stage 5 chronic kidney diseases (CKD), the eGFR falls below:

- A) <20
- B) <10
- C) <15
- D) <5

13-Kawasaki disease is associated with:

- A) Coronary artery aneurysm
- B) Renal failure
- C) Pleural effusion
- D) Hemiplegia

14-All are features of diabetic ketoacidosis except:

- A) Air hunger
- B) Hyperthermia
- C) Dehydration
- D) Drowsiness

15-All of the following are noted in Cushing's syndrome except:

- A) Psychosis
- B) Systemic hypertension
- C) Sexual precocity
- D) Osteoporosis

16- Which one of the following is not a cause of chronic hepatitis?

- A) Hemochromatosis
- B) Wesson's disease
- C) Hepatitis A virus
- D) Alpha 1 Antitrypsin deficiency.

17- The first line of treatment of upper GI bleeding is:

- A) Endoscopy
- B) Resuscitation
- C) Intervention radiology
- D) Surgery

18-All of the following are features of hepatocellular failure except:

- A) Fetor hepaticus
- B) Flapping tremors
- C) Ascites
- D) Hematemesis

19-Peritoneal dialysis may be complicated by all of the following except:

- A) Peritonitis
- B) Hypoglycemia
- C) Hypoproteinemia
- D) Ascites

20-Which of the following is not associated with hypothyroidism:

- A) Loss of lipido
- B) Weight loss
- C) Cardiac failure
- D) Psychosis

Short questions (30 marks)

Answer all of the following questions (2marks each)

- 1-Enumerate 4 Causes of thrombophilia.
- 2-Enumerate 6 signs of liver cell failure.
- 3-Enumerate 4 clinical presentations of gastrointestinal bleeding.
- 4-Enumerate diagnostic criteria of rheumatoid arthritis.
- 5-Enumerate diagnostic criteria of chronic kidney disease.
- 6-Enumerate 4 Causes of fresh bleeding per rectum

- 7- Enumerate 3 Causes of hypoglycemia.
- 8- Enumerate lines of treatment of heart failure.
- 9-Enumerate 4 causes of secondary hypertension.
- 10- Enumerate 4 Diagnostic criteria of diabetes mellitus.
- 11-Enumerate 4 causes of melena.
- 12-Enumerate 4 clinical presentations of chronic renal failure.
- 13-Enumerate 3 causes of vasculitis.
- 14-Enumerate 4 clinical presentations of Acromegaly.
- 15-Enumerate 4 causes of enlarged thyroid.

Good Luck

سيتم عقد إمتحان الشفوى والإكلينيكي يوم الأربعاء الموافق ٢٠١٩/٩/١٨ فى تمام
الساعة الثامنة صباحاً بقسم الامراض الباطنة .
